

The background is a dark, abstract composition. It features several overlapping planes and surfaces in shades of gray and black. A prominent white dashed line curves from the bottom left towards the center. Another dashed line, composed of small rectangular segments, arcs across the top right. In the lower right, there is a faint, semi-transparent image of a modern building with a grid-like facade. The overall aesthetic is technical and architectural.

TECHNICAL ADVISORY COUNCIL

TAC Activities

- Standard Document format research
- XML Data Transfer Standards
- Enterprise Architecture Table Update

EA Table Designations

Watchlist

- Considered for adoption

Mainstream

- Standard target technology

Containment

- Substantive investment is not prudent

Retirement

- requires a replacement plan

Substantive EA Changes

- **Retirement**

- SSRS 2000, Office ≤2000, Outlook ≤2000, SQL Server 2000, DEC VMS, Data Junction

- **Containment**

- Kofax, Crystal 10, SSRS 2005, Office 2003, Outlook 2003, SQL Server 2005, Informix SPS, Windows Server 2003

- **New Target**

- Google Apps, Windows Server 2008, Windows Communication Foundation, BizTalk
- Standardized Data Transfer Technology
 - IBM MQ or Web Services

Further Work Required

- E-mail Encryption
- Official Document Authentication
- Data Encryption Standard for mobile devices
